

City of Loma Linda Official Report

Floyd Petersen, Mayor
Stan Brauer, Mayor pro tempore
Robert Christman, Councilmember
Robert Ziprick, Councilmember
Charles Umeda, Councilmember

COUNCIL AGENDA: March 14, 2006

TO: City Council

VIA: Dennis R. Halloway, City Manager 

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer 

SUBJECT: Award Contract for Professional Services to Prepare an Urban Water Management Plan.

RECOMMENDATION:

It is recommended that the City Council award a contract to Engineering Resources of Southern California, Inc. (ERSC) in the amount of \$27,000 to prepare the Urban Water Management Plan (UWMP).

BACKGROUND:

As a water provider agency, the City is required by the Water Code (Assembly Bill 797 of the California Legislature) to prepare and submit a UWMP to the State Department of Water Resources every five years. The UWMP will provide information regarding the City's existing and future water sources, conditions of water system, capacity, quality and contingency plan in the event of drought.

ANALYSIS:

In May of 2002 the City competitively bid then contracted with ERSC to prepare the last UWMP. The City requested ERSC to provide the City with an update to the existing plan. ESRC has agreed to our proposal and will draft and final copies for City Council review and approval.

FINANCIAL IMPACT:

Funding was requested and approved during the mid-year budget review for this project. \$30,000 is available in account no. 65-7000-1820, Urban Water Management Plan.
